

# Product Description

## Halogen PAR38 spotlight

The Todaybulb's halogen PAR38 spotlight delivers precision lighting for both indoor and outdoor spaces. They offer a 38 degree narrow beam angle ensures sharp and controlled illumination, making them ideal for specific highlighting and focused lighting.

### Advantage

#### - Versatile Outdoor & Indoor Lighting

Todaybulb's halogen PAR38 spotlight features a fire-sealed cover with durable glass body construction. It can be used outdoor when matching with a waterproof fixture. It brightens gardens, pathway, tree lighting, and focal points outdoor. And it enhances track lightings and accent decor lightings indoor.

#### - Long Lasting Lifetime

Todaybulb's halogen PAR38 flood light is made of good quality tungsten filaments and halogen gas, thick pressed hard glass, with 2000 hours long lasting life.

#### - Warm and Inviting Glow

Todaybulb's PAR38 E27 lamp emits a comfortable 2800K warm white light, creating a welcoming atmosphere. With high CRI up to 100, they reveal the true and vibrant colors for the object.

#### - Dimmable

Halogen PAR38 lamp offers the advantage of 0~100% full dimmability, many modern Led bulbs can't match. Easily set the perfect mood, from bright task lighting to soft, intimate illumination.

#### - Easy installation

Easy Installation for Halogen PAR38 lamp with E27 base. Installation takes seconds - just screw in and enjoy instant, flicker-free light without warm-up time.

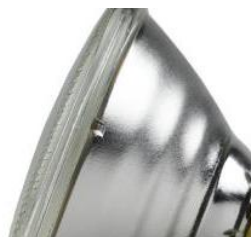

## Halogen PAR38 spotlight
