

Product Description

LED Transparent Bulb

The clear e27 led bulb with clear takes efficient light transmission, energy saving and long lifespan, and flexible design as its core advantages, solving problems such as uneven color mixing, high energy consumption and short lifespan in traditional lighting. The unique light guide column lamp and its small size make it a good choice to replace traditional lamps and ordinary lighting bulbs.

Advantage

- Unique design

Unlike the ordinary LED A60 lamp, the clear decorative led light bulbs has a lotus light guide column inside. The light of clear led light bulbs will emit light through the lotus light guide column, presenting the shape of a lotus. It is mostly used for decoration.

- High Color Render Index

Featuring a Color Rendering Index (CRI) of 80 or higher, clear e27 led bulb reproduce colors faithfully, making them ideal for environments requiring precise color discrimination.

- High Lumen

Clear globe led light bulbs incorporates high-performance chips that generate brilliant light output (high lumen values), providing both visual comfort and remarkable lifespan.

- Good heat dissipation

Clear led light bulbs with durable plastic+Aluminum housing, high quality plastic guide column and good heat dissipation PCB board, compared with traditional glass lamps, it has a better heat conduction effect and is less likely to break.

- Long lifespan

Clear globe led light bulbs with an average operational life of 15,000 hours, it requires far fewer replacements than traditional lamps.

- Easy to install

With standard socket compatibility, the majority of clear decorative led light bulbs are designed for E27 or B22 bulb bases, making them suitable for regular home lighting fixtures.

LED Transparent Bulb

		
SMD 2835 LED Chips & Lotus Guide Pillar	PC & Aluminum Housing	E14 / E27 Lamp Base

Feature

- ✓ High-transparency clear cover
- ✓ High Brightness
- ✓ Unique design
- ✓ Lotus-shaped light guide column
- ✓ Easy to install, E27/B22 standard base option
- ✓ Long Lifetime

Application

Clear globe led light bulbs are mostly used for home lighting, such as bedrooms, dining rooms, living rooms, wall lamps, table lamps, etc.
