

Product Description

Small LED Filament Bulb

Mini LED Filament Light Bulb is a compact, energy-efficient lighting solution which is designed to mimic the classic appearance of traditional incandescent filament bulb while combining modern LED technology. Featuring visible LED filaments enclosed within clear or frosted glass body, LED mini filament bulb offer vintage aesthetics with superior performance.

Advantage

- Compact size

Todaybulb's LED mini filament bulb has small compact size compared to standard LED filament bulb, an ideal choice for decorative and space-constrained applications.

- Energy efficient

Todaybulb's LED small filament light bulbs consume much less power compared to traditional incandescent and halogen bulb.

- Long life

Todaybulb's LED small filament light bulbs typically last up to 25,000 hours or longer, reducing replacement frequency.

- Various color temperature

Todaybulb's LED small screw filament bulb has various color temperature, typically from 2700-6500K for different settings and environment.

- Heat dissipation

Todaybulb's LED small screw filament bulb generates less heat, making it safer and more efficient.

- Various models

Todaybulb's LED SES filament bulb has various models with different shapes, size and base type, such as C7 T13 T15 T20 ST26, E12 & E14 base, suitable for chandeliers, pendant lights and other compact bulb fixtures.

Small LED Filament Bulb

Feature

- ✓ Compact size
- ✓ Various CCT options
- ✓ Various shape
- ✓ Energy efficiency
- ✓ Long life
- ✓ Available in E12 E14 base

Application

LED SES filament bulb is a compact, stylish, and energy-efficient light source combining with modern LED technology, which is ideal for a wide range of decorative and functional lighting scenarios. Typically for main application areas as:

- Home Lighting
 - Chandeliers & Pendant Lamps: SES LED filament bulb is perfect for multi-bulb fixtures due to their compact size and vintage appearance.
 - Wall Sconces & Vanity Mirrors: SES LED filament bulb creates a warm, cozy comfort ambiance in bedrooms, corridors and living rooms.
 - LED Accent & Decorative Lighting: SES LED filament bulb is ideal for shelves, display cabinets and artwork lighting.
- Hospitality & Commercial Lighting
 - Hotel & Cafe: LED small Edison screw filament bulb provides a welcoming atmosphere with soft, warm and cozy white light.
 - Bar & Lounge: LED small Edison screw filament bulb adds character and style when used in clear glass or exposed bulb fixtures.
 - Retail Store: LED small Edison screw filament bulb highlights products and enhances the aesthetic appearance of displays.
- Event & Decorative Use
 - String & Festoon Light: LED mini filament bulb is commonly used for wedding, party, patio and outdoor activity.
 - Seasonal Decoration: LED mini filament bulb is great for Christmas lights, lantern and themed fixture.
 - Vintage Fixture: LED mini filament bulb enhances appearance performance of retro or industrial-style lighting setups.

Small LED Filament Bulb

- Low Voltage Lighting

- Navigation Marine Use: LED small filament light bulbs are suitable for tight spaces and low-voltage navigation marine lighting.
- Solar Lighting System: LED small filament light bulbs work well in 12V/24V solar-powered off-grid setups.
